FLOORING

SPC COLLECTION

CONRAD FLOORING products are covered by a warranty period from the date of purchase by the original purchaser against defects in materials, workmanship and conform to product specifications, provided installation, maintenance and use falls within CONRAD FLOORING's recommended installation instructions.

CONRAD FLOORING SPC COLLECTION products are backed by a Limited 15-Year Commercial Warranty and Limited Lifetime Residential Warranty for manufacturing defects as described below.

Keep proof of your purchase in the form of an invoice, bill or statement from a CONRAD FLOORING retailer/contractor that shows date and price paid, including labor.

GENERAL INFORMATION

Product Inspections

- Inspection of all flooring materials must be done before installation.
- Materials with visible defects are not covered under warranties once they are installed.
- CONRAD FLOORING warrants that its flooring is free of visual defects. Customer or installer should carefully inspect each piece before installation. Products that appear to have defects should not be installed. CONRAD FLOORING will not be responsible for any claim for products installed with visual defects.

Sub-Floor Preparation

- Sub-Floor must be flat, dry, smooth, level and free from residues and structurally sound.
- The sub-floor should be free of any surface defect.
- ALWAYS CHECK MOISTURE LEVELS BEFORE INSTALLING.
- Moisture Barrier Film must be installed.
- Documents must be kept for all test results for warranty purposes.

Acclimation / General Conditions

- The flooring should be acclimated in the rooms in which it will be installed by letting the packages of flooring lie flat on the floor for at least 48 hours prior to installation.
- Acclimation of the floors can be done by leaving it inside the box.
- Acclimation of the flooring must be done in the room where the flooring will be installed and where the temperature and humidity are maintained at or near normal living conditions.

Preparing the Room

- Check that the doors can still open and close after the floor and underlayment have been installed.
- Test the concrete subfloors moisture content by using an appropriate moisture meter. The moisture content for concrete subfloors must not exceed 85% Relative Humidity per ASTM F-2170. DO NOT install the flooring. Before moisture testing begins, the slab must be cured for a minimum of 60 days or less if readings are acceptable. When using a moisture meter, please refer to the recommended guidelines set forth for by the moisture meters' manufacturer
- It is required to use a moisture barrier when installing over a on grade and below grade concrete slab. A 6-mil polyethylene must be used under the entire flooring install area. Overlap polyethylene seams 6" and use waterproof tape on seams. Remember to roll the 6-mil polyethylene out perpendicular to the direction you are installing your floor.

TERMS AND CONDITIONS FOR SPC WARRANTY

If a defect covered by this Limited Warranty is found within the warranty period, upon verification of the defect, CONRAD FLOORING will replace the affected area without charge, with flooring of equal value and/or quality. CONRAD FLOORING will not cover for any of the installation fees.
